- 16 May Calendar

### About the Cover

Sea glass jewelry from Lisa Hall Jewelry ([www.lisahalljewelry.com](http://www.lisahalljewelry.com)). Hall explains, "When choosing perfect jewelry-quality sea glass, I look for a very smoothed, tumbled and frosted surface, varied shapes and interesting colors. I love the rare colors (bright blues, lavenders, pinks, and reds), but a perfect worn piece of a common white, green, or brown can be just as stunning, and in my mind more unique and precious than any gemstone!" To learn more about sea glass, turn to page 28.
